Building/contractor	Fortenberry Construction Services LLC PO Box 70 Powder Springs 770-222-3215 www.FCSatlanta.com christine@FCSatlanta.com	Julie Clouse	We recently had a "roof" put over our front door. Our home is one of many that had no front door/porch protection and we face due west (full afternoon sun). Christine was great to work with, she listened to our concerns and worked with us to meet our needs. Her workers are professional and were at the house when scheduled. We highly recommend her and her company, and we will use them for any future home improvements.

We were satisfied with the work and due to his licensing, extensive experience, and excellent communication skills, we would recommend him for kitchen, bath, and basement remodeling projects.

They installed the hardwood, stretched carpet to hide where a door had been removed and did great work. We recommend them and will be working with them again!

Handyman	On the Mark -- Home Repairs 35 Mt Calvary Road Marietta 770.231-4580 marksrudder@bellsouth.net	Ken & Christy Lyle	Roof repairs, trim replacement, interior work including painting, Stuff a BIG company won't do or will overcharge. Another Echo Mill resident (Metcalf) recommends Mark also. GREAT guy, ON TIME, knows his stuff and does nice work at a good price. I have done Habitat homes and have helped install roofs so I knew Mark was solid when he told me how he would replace a few blown off shingles from that last BIG storm (April 2011). I also had him clean the gutters (he does it by hand and carries the full bucket down to his truck to empty in his own trash bags so no mess!). At no extra charge, he nailed in gutters where nails were backing out and caulked around a vent boot that was letting some water drip into the attic. I've seen some SCARY characters in my 13 years
