

SECURITY

CONVENIENCE

In the development of your planned community the architects, for the safety and well being of the residents, specified the various forms and placements of lighting throughout the community. The natural gas lamp in front of your home was chosen to provide an uninterrupted source of light even in the event of electrical power outages. This constant light source can be a deterrent to criminal activity and provide safe passage for residents & visitors after dark. We have noticed your Gas Lamp is not burning and we are here to Help.

For a limited time, Austell Natural Gas will perform minor repairs and light your Gas Lamp for

FREE!

Call our Sales & Marketing Dept. for details.
